

QuickDrain Compact

Safe removal of fuel and waste fluids from End of Life Vehicles

>> Maximise productivity

- Compressed air operated
- Drains fuel and waste fluids quickly and efficiently
- Minimum installation required
- Removes petrol, diesel, waste oil and coolant

>> Space saving

- A neat and compact unit
- Designed to fit alongside your current lifting system
- Perfect for a smaller workshop

>> Easy to use

- Pumps all fuel and fluids directly to storage, saving valuable time.
- Simple pipe work connections to storage tanks means self installation is easy, or we can install the unit for you with minimum disruption to your work routine.

>> Good, clean, re-usable fuel

- Centrifugal action of our unique water separators removes contamination from fuel including water and particles, giving you clean re-usable fuel.

Training

Training is vital to ensure you maximise the profitability and longevity of your QuickDrain Compact and we have the following training options for you:

- 1 Free Online Training Information and Video
- 2 Certificated Training at our own ATF facility in Leeds – price on application

The QuickDrain Compact is an Intermediate system for high speed, safe removal of fuel and waste fluids from your End of Life vehicles, forming part of your depollution operation. Systems can be sold as standard or tailored, manufactured and installed to your exact requirements.

QuickDrain Compact

Safe removal of fuel and waste fluids from End of Life Vehicles

Your QuickDrain Compact unit comes complete with:

Our unique fuel tank drilling system

Guarantees good, clean re-usable fuel

Gravity waste oil drainer

Fastest way to remove oils from the sump

The QuickDrain Compact unit is suitable for all sites to enhance or upgrade your current depollution process.

It is designed to fit alongside your depollution equipment in order to make the most of the space you have available and maximise productivity.

Watch our video at www.autodrain.net to see how easy to use the QuickDrain Compact is.

Fact!

Our clients regularly tell us that one of their favourite key benefits of the QuickDrain Compact is how the unique water separators effectively clean the fuel during the removal process. This maximises efficiency and saves business precious time, as it leaves you with re-usable fuel at the end of the process.

AutoDrain are the market leaders in supplying equipment to the End of Life Vehicles industry. Our years of experience in running our own ATF mean that we understand your business needs and what is important to you.

All our products are designed and built to high standards, as well as being fully compliant with all HSE and Environment Agency legislation.
